**FOR IMMEDIATE RELEASE**

**November 15, 2006**

## **Ulster County Formally Establishes A Fleet Manager**

Brian Cahill, Chairman of the Administrative Services Committee and Robin Peruso, County Purchasing Agent, have made a determination for the new position of Fleet Maintenance Coordinator. Based on strict criteria, Anthony J. Gallo, Jr. has been designated the Fleet Manager from a large pool of qualified applicants.

Mr. Gallo is currently employed in the Ulster County Highways and Bridges Department. Mr. Gallo has worked for the County since 1990. He will institute and administer the County database of over 250 cars and light trucks currently in use by various County departments.

Ulster County has been looking at various plans to establish a fleet management program for several years. With an eye towards greater efficiencies, in May 2006, the Ulster County Legislature forged a strong commitment with the residents of Ulster County by appointing Victor Work to perform special projects on their behalf. Mr. Work was directed to research, develop and institute an effective fleet management program. "I would like to commend Vic Work for his outstanding efforts and unmatched commitment to the residents of Ulster County," stated Legislator Brian Cahill.

The Fleet Maintenance Coordinator will work at Central Auto under the direction of Robin Peruso, Ulster County Purchasing Agent.
